New Dwarf Giant Flowering Salpiglossis

After several years of intensive culture on this new type of Salpiglossis, we now have six fine varieties to offer the Seed Trade.

Averaging 12 to 18 inches shorter than the regular Emperor strain, the new Dwarf Giant Flowered Salpiglossis have the compact branching habit, with individual flowers half again as large.

In comparison with the Emperor type, the new Dwarf Salpiglossis are ideally suited for bedding purposes, being very floriferous and covering the entire head of the plant with blossoms.

We are really proud of these selections and predict an enthusiastic reception for the new Dwarf Strain.

EVENTIDE

A new color introduction for the Summer Flowering Sweet Peas. Ridgway's classification of this Novelty is an Eosine pink to rose Doree with a gold shading. Both standard and wings hold to this delightful new color.

We believe this variety to be one of our foremost introductions and that it exemplifies the progress made in the culture of Sweet Peas.

ENSIGN

Like an Ensign, it carries our colors to the crest. A remarkably different Sweet Pea in Ensign, and of a color that will be in great demand.

CARNATION FLOWERED GOLDEN EAGLE

(See Opposite Page)

Closely related to the popular variety Guinea Gold, Golden Eagle has the same habit, height and form of flower; but the color is a delightful shade of luminous gold, pleasing and distinctive. The plants come 100% double and the usual Marigold odor is practically lacking, and it is early flowering.

Golden Eagle as a cut flower is superb and will become more popular than Guinea Gold, not only with the florist but also in the home garden. It is the most graceful of all the Marigolds, and has long life as a cut flower.

Price per oz. \$1.80; per lb. \$20.00

CARNATION FLOWERED LEMON GEM

Another companion to Guinea Gold; type, height and habit are exactly the same. The color is rich lemon yellow, a few shades deeper than Marigold Yellow Supreme.

Marigold Lemon Gem completely rounds out the Guinea type class and makes a wonderful long lasting cut flower.

Price per oz. \$1.80; per lb. \$20.00.

(See front cover) Electro 2.20.

CHRYSANTHEMUM FLOWERED CALIFORNIA GIANTS MIXED

(See Next Page)

This is an enormous flowering type, height 4 to 5 feet. The color ranges from a lemon to a bright orange with many shadings in between, the flowers are all 4 to 6 inches across. Most of the blossoms have flat broad petals, but some come quilled like the dwarf Mexican type.

Where size is in demand, we confidently recommend the California Giants.

Price per oz. \$1.00; per lb. \$12.00

Price per lb. \$20.00

Stock Giants of California

DISTINCTIVELY NEW

This magnificent group comes very early having the branching habit of the Bismark, with mammoth flowers on longer stems; on this account it is a great improvement over all forcing stocks. We can with confidence recommend it to the Florist grower, as its branching habit lends itself admirably for bedding work and it comes with a high percentage of double plants.

It is a double purpose stock. When planted close they make one long spike of mammoth florets closely packed around the stem. When given plenty of room they will make a beautiful plant of the branching habit, the florets are still mammoth and the plant will reach a height of 36 inches with branches 24 inches long.

BLUE DANUBE

Blue Danube is a bit lighter than Mrs. Hoover and a shade deeper than Blue Bonnet. This magnificent mid-blue is best suited (like all other blues) for color work in the daytime, when it shows off to perfection.

Large, ruffled blooms of a clear lavender blue, on long straight stems in sprays of four; an enchanting sight and one not easily forgotten.

Price per $\frac{1}{4}$ lb. \$2.50;
per lb. \$10.00.

COLLEEN

Bright vivacious youth is portrayed in this very novel outstanding new sweet pea. Lanky, lithe stems, with sprays of four sweetly fragrant, brilliant rose suffused with gold blooms that are sure to stir the hearts of all admirers.

Turning to a rich golden rose under artificial light, Colleen thrives and flashes brightly — standard and wings are both of a wonderful even color that tones down to a white at the base.

Price per $\frac{1}{4}$ lb. \$2.50
per lb. \$10.00.

SUNPROOF ORANGE

At last we have an orange immune to the bright California sun. From the time the first bud bursts forth, until the aged flower withers and reveals the seed pod, a solid bright beautiful color holds steadfast on standard, wings and keel, unblemished by the strong sun's rays.

Price per $\frac{1}{4}$ lb. \$3.75; per lb. \$15.00

Top Hat

A distinctly new color in sweet peas. Mammoth flowers of a deep velvety violet, coming with a large waved standard and widely spread wings.

Electro 5.50

Top Hat is a very vigorous grower and produces stems that are surprisingly long. We would recommend this variety particularly for garden cultivation.

Price per $\frac{1}{4}$ lb. \$3.75; per lb. \$15.00
